

SolarEdge SE1000-CCG-F-S1 Firefighter Safety Gateway

Product code: AF.inne.solaredge.07

The SolarEdge SE1000-CCG-F-S1 fire gateway enables centralized management of SolarEdge system safety. With it, firefighters can swiftly halt energy production from SolarEdge solar installations using either a manual alarm switch or automatically through the fire control panel system. When energy production is stopped, the SafeDC™ feature reduces the string voltage to a safe level.
