

SolarEdge Kabel-Set Battery/Inverter RWS IAC-RBAT-5KCINV-02

Product code: AME.kable.solaredge.02

The SolarEdge battery/inverter RWS cable set IAC-RBAT-5KCINV-02 is a complete set of connection cables that enables the connection of the SolarEdge Home energy storage system with the RWS inverter. This cable set is essential for effectively connecting the battery to the inverter, ensuring smooth communication and energy transfer between these two components of the system. This allows users to efficiently manage the energy stored in the battery and utilize it according to the needs of their home or installation.
