

Goodwe WiFi/LAN Kit (GA10081-69-00P)

Product code: AF.antenka.goodwe.03

Goodwe WiFi/LAN Kit (GA10081-69-00P) The LAN + WiFi communication module integrated into a single device, designed for centralized deployment and management - providing simplified configuration, operation, and maintenance. Data is encrypted to ensure the security of transmitted information. The module supports interruption point retransmission, meaning it automatically disconnects broken connections, reconnects, and later transmits to prevent data loss. Remote updates are also possible, enabling firmware updates for the inverter without the need for physical presence on-site.
