

Wood screw 8x80 A2 with countersunk head and Torx drive.

Product code: WKREĆ DO DREWNA 8X80 A2 Z ŁBEM TALERZOWYM TORX

The wood screw 8x80 A2 with a Torx countersunk head - It is a screw made of galvanized steel. The screw with a countersunk head can be easily removed and is suitable for general wood construction, roof structures, and many others. • Exceptionally wide countersunk head for better distribution of contact pressure. • Blackened thread reduces screwing resistance, making it easier to screw in. • Knurled tip prevents material splitting.
