

Pylontech US Series (48V) Installation-bracket for US3000C

Product code: AME.podstawa.pylontech.01.us3000c

Battery brackets for Pylontech US3000C The brackets are specially designed for mounting Pylontech US3000 batteries on any wall, allowing you to save space by eliminating the need for a rack. With their design, you can easily stack batteries, both horizontally and vertically, while ensuring optimal ventilation. Made of high-quality aluminum, they guarantee durability and strength. The brackets are the perfect solution for those who don't have a rack or enough space to place it, providing a safe installation for Pylontech batteries. Installation is simple - just place one bracket at the back of the battery and the other at the front, then close the tabs on both sides to ensure a solid mounting.
