

FoXESS R100

Product code: F.FOX.3F.wifi.01000.R100

Manufacturer	FOXESS
Inverter type	On-grid
Inverter phases	3
Ethernet	-

The R series inverters are designed for commercial installations. Thanks to unparalleled efficiency and versatility, we achieve higher energy production yields and longer daily operating hours of the power plan

Product description

The R series inverters are designed for commercial installations. Thanks to unparalleled efficiency and versatility, we achieve higher energy production yields and longer daily operating hours of the power plan

Advantages of the FoXESS R100

Monitoring of the current of each string of the P
AFCI function
PID recovery
LED indicator, Wi-Fi + application
IP66 and C5 protection

G-VOLT 1/2 Generated : 2024-11-23

Input current 13A/26A - compatibility with bifacial Technical specifications of the FoXESS R100 inverter:

Maximum Input

Start-up Voltage [V]:
