

# Hexagon socket head screw M8x20mm DIN 912

Product code: K.40x40.21a

Hex socket cap screws with dimensions M8x20mm are ideal for use in hard-to-reach areas. They are commonly used for mounting aluminum profiles. Coated with a layer of zinc, they provide increased corrosion resistance, making them durable and reliable in various conditions.

Technical Data:

Diameter: M8

Length: 20 mm

Material: Stainless Steel A2

Standard: DIN 912
