

Pylontech Force H3 BMS

Product code: ME.BMS.Pylontech.04

Pylontech H3 BMS BCU is an advanced battery management system that ensures the safe and efficient operation of the entire system. It allows remote monitoring and management, enhancing battery performance and safety.

Product description

Pylontech H3 BMS BCU is an advanced battery management system that plays a crucial role in monitoring and optimizing the performance of Pylontech H3 batteries. It ensures their efficiency and longevity.

- **Monitoring and Management:** BMS BCU allows remote monitoring of battery status and system management via a mobile app, facilitating ongoing control and optimization.
- **Modularity:** The system supports the connection of up to six battery towers, enabling scalability up to 215 kWh, meeting the demands of even the most extensive installations.
- **Safety:** BMS BCU provides advanced protection against overcharging, over-discharging, overheating, and other potential hazards, increasing overall system safety.
