Product description

Canadian Solar TOPHiKu6 CS6W 580W SF N-Type Bifacial

Product Description: The **Canadian Solar TOPHiKu6 CS6W 580W SF N-Type Bifacial** photovoltaic module is an advanced solution based on **TOPCon N-Type** technology, ensuring high

efficiency and extended lifespan.

Key Features:

- **Rated Power 580W** – optimal system performance.
- **N-Type TOPCon Technology** – higher efficiency and better resistance to degradation.
- **Bifacial Design** – additional energy gains from the rear side of the module.
- **Module Efficiency up to 22.5%** – maximizing energy production.
- **High Durability** – wind resistance (2400 Pa) and snow load (5400 Pa).
- **Extended Lifespan** – **30-year** performance warranty and **15-year** product warranty.
- **Optimized BOS Costs** – reducing installation expenses.

Applications:

- Commercial and industrial installations.
- Solar farms.
- Rooftop and ground-mounted systems.
- Bifacial systems for increased energy yield.

With advanced technology and high efficiency, the **Canadian Solar TOPHiKu6 CS6W 580W SF N-Type Bifacial** is an excellent choice for modern photovoltaic installations.
