

GoodWe HV Battery cabinet Lynx C - GW60KWH-D-10Extension

Product code: BESS.GoodWe.02

GoodWe GW60KWH-D-10 (Battery Section) – 60 kWh Modular Battery System

The GoodWe GW60KWH-D-10 in its battery-only version (without the AC cabinet) is a standalone 60 kWh energy storage unit designed for integration with GoodWe ET series hybrid inverters (15–30 kW). It's ideal for businesses that need flexible expansion of their energy system.

Product description

GoodWe GW60KWH-D-10 (Battery Section) – 60 kWh Modular Battery System

The GoodWe GW60KWH-D-10 in its battery-only version (without the AC cabinet) is a standalone 60 kWh energy storage unit designed for integration with GoodWe ET series hybrid inverters (15–30 kW). It's ideal for businesses that need flexible expansion of their energy system.

Advantages of the GoodWe GW60KWH-D-10:

Modular design: Can be expanded up to 180 kWh by connecting three units in parallel.

Compatibility with GoodWe ET inverters: Ensures high system compatibility.

High efficiency and safety: Features LFP technology, thermal control, and a Perfluoro fire suppression system.

Compact size: Saves space while providing significant storage capacity.

Technical Data:

Usable Energy: 60 kWh

Cell Type: LFP (LiFePO₄)

Number of Battery Modules: 11

Nominal Voltage: 633.6 V

Operating Voltage Range: 554.4 – 712.8 V

Max. Charge/Discharge Current: 96 A

Cyclic Efficiency: 95%

Depth of Discharge: 100%

Lifespan: ≥5000 cycles

Operating Temperature: Charging 0-55°C / Discharging -25-55°C

Dimensions: 808 × 2050 × 1111.5 mm

Weight: Approx. 972 kg

Protection Rating: IP55

Communication: CAN

Cooling: Air conditioner

This battery variant of the GW60KWH-D-10 offers an excellent foundation for building larger energy storage systems, all while maintaining the highest standards of performance and safety in industrial and commercial environments.
